

WCS INDUSTRIES

Components that make your products work

At WCS Industries we custom design and manufacture metal components for a wide range of markets including appliance, automotive, lawn and garden, small engine, power sports and industrial manufacturers.

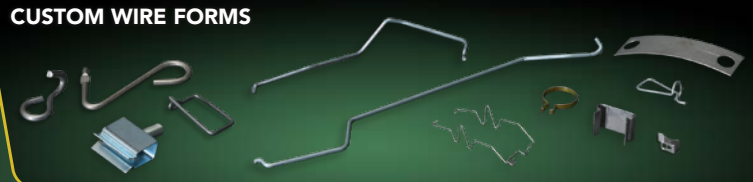

CUSTOM SPRINGS

SPECIALTY COLD HEADED & MACHINED COMPONENTS

CUSTOM WIRE FORMS

CONFIGURABLE & CUSTOM LEG LEVELERS

SUPERIOR ENGINEERING AND COLLABORATION

Our long history of success has come from open-minded, experienced engineers who have faced just about everything and are great listeners, researchers and spot-on communicators. As we partner with your team, we create the spark which illuminates opportunities to improve products and strategically reduce costs. Our proven process can include:

- NEW DESIGN DEVELOPMENT
- EXISTING DESIGN ENHANCEMENT
- EVALUATION AND ANALYSIS

Any engineering initiative at WCS Industries is always done with a single purpose in mind:

To make your component:

SMARTER

FASTER

STRONGER
