SUPERIOR ENGINEERING AND COLLABORATION

NEW DESIGN DEVELOPMENT • EXISTING DESIGN ENHANCEMENT • EVALUATION AND ANALYSIS

ENGINEERING: Our engineers will work with you to determine the best design for your application - before, during, and after production - with Feasibility and APQP review.

- Prototypes, pilot and production runs, post production review
- Design review to meet fatigue life requirements

TESTING: With the most current testing equipment and analysis techniques, WCS can provide:

- Fatigue analysis
- Cycle testing to validate design requirements
- Testing in high heat to replicate applications in use

Any engineering initiative at WCS Industries is always done with a single purpose in mind:
